Rocco Zadra

Engineering Student

From Minneapolis, MN
Student in Gunnison, CO
+1 (612)-594-1494
rzadra@western.edu

Education

In Progress Grad. 2028 **Bachelor of Science, Mechanical Engineering**, *University of Colorado Boulder & Western Colorado University*, Gunnison, CO.
Via the Western/Boulder Engineering Partnership Program

Skills

Solidworks

CSWA certified, *400+ Hours* In Solidworks.

Certs.

- Experienced with complex assemblies and management of foreign parts
- Proficient with GD&T in documentation
- General understanding of some of the more niche tools
- Limited experience with FEA

Other Design Tools

AutoCad:	Almost entirely large scale design	*200+ hours*
Fusion360:	CAD and CAM toolpaths for CNC milling	*50+ hours*
Matlab:	Simulations and graphing	*50+ hours*
Python & Java:	Personal projects	*250+ hours total*
LaTeX:	Typesetting for papers and math notes	*400+ hours*

Significant experience with: Med/High Fidelity prototyping - 3D Printing
Low Fidelity Prototyping - "Cardboard Aided Design"

Fabrication

MIG Welding	Small scale projects, tables etc.	*55+ Hours*
CNC Milling - (HAAS)	Tests and practice parts, IE. a derby car	*30 Hours + monitoring*
Manual Milling and Turning	Small functional parts	*10+ Hours*

Experience

Jan. 2026- Present **Fabrication shop TA**, *Western Colorado University*, Gunnison, CO.
TA for the on campus "Makerspace", responsible for assisting students with coursework and personal projects as well as projects for the school.

- Fabricated new tool organization systems for the wood and machine shops, decreasing overall clutter by almost half.
- Created the current shop reference documentation for plastic workability, tripling the current on hand database.
- Assisted students with 3D Printing and CAD, and Cutting, Grinding, and Welding.

Dec. 2025 - Present **Club President**, *Society of Automotive Engineers*, Gunnison, CO.
Organized and coordinated meetings and led design work for the on campus SAE club, most recently worked on competition in the Mini Baja class

- Improved the competition readiness timeline by four months through structural reorganization
- Coordinated with our senior only capstone team to provide opportunities for nonsenior club members to get hands on experiences
